## ●----- Underway Phase

Higold Outdoor Furniture Company—member of Higold Group, was officially established in 2005 as an outdoor furniture manufacturer. Our products were exported to Sweden, Netherland, Germany, Spain, France, Italy, and Austria giving our company a trustworthy and solid name in the outdoor furniture industry.

## ●----- Transition Phase

In 2008, a new 30,000 production base was built and added into our property. In the same year, Higold set up a showroom of 2,000 for an outdoor exhibition of furniture and started introducing and using a series of modern systems and models.

## ●----- Rapid Development Stage

In 2010, we attended our first SPOGA exhibition show in Germany. Shortly after, world's best-known companies like Kaja Horeca Interieurs of Netherlands, XXXLUTZ of Austria became partners of Higold.

## ●----- Innovation Stage

In 2012, Higold earned the opportunity to cooperate with Landmann and Metro from Germany. In 2013, we signed the contract for the 1st exclusive shop in Foshan, and it sets a significant milestone for developing local market. In 2014, Higold won the Reddot Award and Red Star Award 2014 for its excellent design of Shenzhou X collection. In October, Mr. Nicolas Thomkins joined in Higold design team and became the chief designer of Higold.

## ●----- Brand Promotion Stage

In 2016, More than 40 Higold new furniture shops were set up from both overseas and domestic market. In addition, Pininfarina designers had been invited to design our new head office since June as well as outdoor furniture designs, which had enhanced the international branding image of Higold up to a higher level in terms of a long-run development.

## ●----- Global Branding Phase

In 2016, More than 40 Higold new furniture shops were set up from both overseas and domestic market. In addition, Pininfarina designers had been invited to design our new head office since June as well as outdoor furniture designs, which had enhanced the international branding image of Higold up to a higher level in terms of a long-run development.
